RESOLUTION NO. 2024125

RE: ADOPTION OF ENVIRONMENTAL ASSESSMENT FORMS AND DECLARATION OF SIGNIFICANCE FOR THE DUTCHESS COUNTY CONSOLIDATED TWO-WAY RADIO COMMUNICATION SYSTEM PROJECT

Legislators D'AQUANNI, POLASEK, PAOLONI, GORMAN, FAUST, and ROLISON offer the following and move its adoption:

WHEREAS, the Department of Emergency Response (the "Department") has proposed a project entitled the "Dutchess County Consolidated Two-Way Radio Communications System Project" (hereinafter referred to as the "Project"), which Project involves improvements to sixteen (16) existing emergency communications land mobile radio tower sites throughout Dutchess, Orange and Ulster Counties, and includes installation of new towers and related equipment at three (3) additional sites in Dutchess County, and

WHEREAS, by Resolution No. 2024051, this Legislature declared the Department as lead agency for the coordinated review of the Project concerning ten (10) locations determined to be an Unlisted Action pursuant to 6 NYCRR 617.6, requiring further environmental review and documentation; and

WHEREAS, the Department has reviewed and prepared eight (8) Short Environmental Assessment Forms and has determined that: (1) each constitutes an Unlisted Action pursuant to Article 8 of the Environmental Conservation Law and Part 617.6 of the NYCRR ("SEQRA"), and (2) each will not have a significant effect on the environment, with the last location having been removed from the Project, and

WHEREAS, it is the purpose of the Legislature in adopting this resolution, to adopt and confirm the findings of the Department, and

WHEREAS, true copies of each of the eight (8) Short Environmental Assessment Forms including Parts 1, 2 and 3, reflecting the finding of non-significance are annexed hereto and made a part hereof, now, therefore, be it

RESOLVED, that this Legislature hereby adopts and confirms the Environmental Assessment Form determinations of the Dutchess County Department of Emergency Response concluding that the above referenced Project shall have no significant environmental impacts.

Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information

Public Safety Radio System Upgrade, Dutchess County Department of Emergency Response

Name of Action or Project:

Public Safety Radio System Upgrade

Project Location (describe, and attach a location map):

Pleasant Valley 22 Camp Nooteeming Road Pleasant Valley, NY 12569

Brief Description of Proposed Action:

Installation of public safety communication system compound consisting of a self support antenna tower with foundation , an equipment shelter and foundation, generator and foundation, propane fuel tank and pad. When compound is completed, the installation of antennas, microwave dishes will be made to the tower and electronic equipment will be installed inside the equipment shelter.

Name of Applicant or Sponsor:	Telephone: 845-486-2080
Dana Smith, Commissioner Dutchess County Department of Emergency Response	E-Mail: dsmith@dutchessny.gov

Address:

392 Creek Road

City/PO:	State:	Zip Code:
Poughkeepsie	NY	12601

	NO	YES
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.	☑	☐
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval: T/O Pleasant Valley	☑	☐

3. a. Total acreage of the site of the proposed action? 229.51 acres
   b. Total acreage to be physically disturbed? 0.04 acres
   c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 229.51 acres

4. Check all land uses that occur on, are adjoining or near the proposed action:

☐ Urban ☑ Rural (non-agriculture) ☐ Industrial ☐ Commercial ☐ Residential (suburban)
☑ Forest ☐ Agriculture ☐ Aquatic ☐ Other(Specify):
☐ Parkland

	NO	YES	N/A
5. Is the proposed action,			
a. A permitted use under the zoning regulations?	☐	☑	☐
b. Consistent with the adopted comprehensive plan?	☐	☑	☐
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	☐	☑	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	☑	☐	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	☑	☐	
b. Are public transportation services available at or near the site of the proposed action?	☑	☐	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	☑	☐	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____	☑	☐	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water: _____	☑	☐	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment: _____	☑	☐	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?	☑	☐	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	☑	☐	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	☐	☑	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?	☑	☐	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____ "A Freshwater Pond wetland is approximately 214' to the northeast of the existing access road. Additionally, a Freshwater Forested/Shrub wetland (PF01E) is located approximately 250' to the east of the compound. Furthermore, another Freshwater Forested/Shrub wetland (PSS1E) is located approximately 171' to the south of the compound. The proposed project will have no impact on these wetlands.			

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

☐ Shoreline ☑ Forest ☐ Agricultural/grasslands ☐ Early mid-successional

☐ Wetland ☐ Urban ☐ Suburban

	NO	YES
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	☑	☐
16. Is the project site located in the 100-year flood plan?	☑	☐
17. Will the proposed action create storm water discharge, either from point or non-point sources?	☑	☐
If Yes,		
a. Will storm water discharges flow to adjacent properties?	☑	☐
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?	☑	☐
If Yes, briefly describe:		
18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?	☑	☐
If Yes, explain the purpose and size of the impoundment:		
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?	☑	☐
If Yes, describe:		
20.Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?	☑	☐
If Yes, describe:

Short Environmental Assessment Form
Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.
Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	☑	☐
2. Will the proposed action result in a change in the use or intensity of use of land?	☑	☐
3. Will the proposed action impair the character or quality of the existing community?	☑	☐
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	☑	☐
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	☑	☐
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	☑	☐
7. Will the proposed action impact existing: a. public / private water supplies?	☑	☐
b. public / private wastewater treatment utilities?	☑	☐
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	☑	☐
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	☑	☐
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	☑	☐
11. Will the proposed action create a hazard to environmental resources or human health?	☑	☐

Short Environmental Assessment Form
Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Question 15 – Additional comments

Dynamic Environmental Associates evaluation of flora and fauna in the Site area used the current list of Threatened and Endangered Species that have been identified in the immediate project area. No listed or proposed threatened or endangered species were observed on or in proximity to the Site. Further, it is our opinion that the proposed project will have and historically has had no effect on listed threatened or endangered species. An assessment was conducted by Dynamic Environmental Associates to determine if any of the listed or proposed T&E species were readily observable and/or whether the habitat necessary to support the listed species is present or was likely to have historically been present on or in proximity to the Site. No listed or proposed threatened or endangered species were observed on or in proximity to the Site. Further, it is their opinion that the proposed project will have and historically has had no effect on habitat that may be used by T&E species.

Short Environmental Assessment Form
Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information

Public Safety Radio System Upgrade, Dutchess County Department of Emergency Response

Name of Action or Project:

Public Safety Radio System Upgrade

Project Location (describe, and attach a location map):

401 Woodmont Road, Hopewell Junction, NY 12533

Brief Description of Proposed Action:

Additional equipment being installed at public safety communication system compound consisting of an equipment shelter and foundation, generator and foundation, propane fuel tank and pad. When compound is completed, the installation of antennas, microwave dishes will be made to the existing tower and electronic equipment will be installed inside the equipment shelter. Additionally, a 4' retaining wall will be constructed on site to support the generator pad.

Name of Applicant or Sponsor:	Telephone: 845-486-2080
Dana Smith Commissioner, Dutchess County Department of Emergency Response	E-Mail: dsmith@dutchessny.gov

Address:

392 Creek Road

City/PO:	State:	Zip Code:
Poughkeepsie	NY	12601

	NO	YES
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.	☑	☐
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:	☑	☐

3. a. Total acreage of the site of the proposed action? 1634 acres
   b. Total acreage to be physically disturbed? 0.009 acres
   c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 117.07 acres

4. Check all land uses that occur on, are adjoining or near the proposed action:

☐ Urban ☑ Rural (non-agriculture) ☐ Industrial ☐ Commercial ☐ Residential (suburban)
☑ Forest ☐ Agriculture ☐ Aquatic ☐ Other(Specify):
☐ Parkland

	NO	YES	N/A
5. Is the proposed action,			
a. A permitted use under the zoning regulations?	☐	☑	☐
b. Consistent with the adopted comprehensive plan?	☐	☑	☐
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO ☐	YES ☑	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	NO ☐	YES ☑	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	NO ☑	YES ☐	
b. Are public transportation services available at or near the site of the proposed action?	☑	☐	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	☑	☐	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____ _____	NO ☑	YES ☐	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water: _____ _____	NO ☑	YES ☐	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment: _____ _____	NO ☑	YES ☐	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?	NO ☑	YES ☐	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	☑	☐	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	NO ☑	YES ☐	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?	☑	☐	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____ _____ _____			

14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply:

☐ Shoreline ☑ Forest ☐ Agricultural/grasslands ☐ Early mid-successional

☐ Wetland ☐ Urban ☐ Suburban

	NO	YES
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	☐	☑
16. Is the project site located in the 100-year flood plan?	☑	☐
17. Will the proposed action create storm water discharge, either from point or non-point sources?	☑	☐
If Yes,		
a. Will storm water discharges flow to adjacent properties?	☑	☐
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?	☑	☐
If Yes, briefly describe:		
18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)?	☑	☐
If Yes, explain the purpose and size of the impoundment:		
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility?	☑	☐
If Yes, describe:		
20. Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste?	☑	☐
If Yes, describe:		

I CERTIFY THAT THE INFORMATION PROVIDED ABOVE IS TRUE AND ACCURATE TO THE BEST OF MY KNOWLEDGE

Question 15 – Additional comments

An assessment was conducted by Dynamic Environmental Associates to determine if any of the listed or proposed T&E species were readily observable and/or whether the habitat necessary to support the listed species is present or was likely to have historically been present on or in proximity to the Site. No listed or proposed threatened or endangered species were observed on or in proximity to the Site. Further, it is their opinion that the proposed project will have and historically has had no effect on habitat that may be used by T&E species.

Short Environmental Assessment Form
Part 2 - Impact Assessment

Part 2 is to be completed by the Lead Agency.
Answer all of the following questions in Part 2 using the information contained in Part 1 and other materials submitted by the project sponsor or otherwise available to the reviewer. When answering the questions the reviewer should be guided by the concept "Have my responses been reasonable considering the scale and context of the proposed action?"

	No, or small impact may occur	Moderate to large impact may occur
1. Will the proposed action create a material conflict with an adopted land use plan or zoning regulations?	☑	☐
2. Will the proposed action result in a change in the use or intensity of use of land?	☑	☐
3. Will the proposed action impair the character or quality of the existing community?	☑	☐
4. Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)?	☑	☐
5. Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway?	☑	☐
6. Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities?	☑	☐
7. Will the proposed action impact existing: a. public / private water supplies?	☑	☐
b. public / private wastewater treatment utilities?	☑	☐
8. Will the proposed action impair the character or quality of important historic, archaeological, architectural or aesthetic resources?	☑	☐
9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?	☑	☐
10. Will the proposed action result in an increase in the potential for erosion, flooding or drainage problems?	☑	☐
11. Will the proposed action create a hazard to environmental resources or human health?	☑	☐

Question 15 – Additional comments

Dynamic Environmental Associates evaluation of flora and fauna in the Site area used the current list of Threatened and Endangered Species that have been identified in the immediate project area. No listed or proposed threatened or endangered species were observed on or in proximity to the Site. Further, it is our opinion that the proposed project will have and historically has had no effect on listed threatened or endangered species. An assessment was conducted by Dynamic Environmental Associates to determine if any of the listed or proposed T&E species were readily observable and/or whether the habitat necessary to support the listed species is present or was likely to have historically been present on or in proximity to the Site. No listed or proposed threatened or endangered species were observed on or in proximity to the Site. Further, it is their opinion that the proposed project will have and historically has had no effect on habitat that may be used by T&E species.

Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 1 - Project Information

Instructions for Completing

Part 1 – Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification. Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information.

Complete all items in Part 1. You may also provide any additional information which you believe will be needed by or useful to the lead agency; attach additional pages as necessary to supplement any item.

Part 1 – Project and Sponsor Information

Public Safety Radio System Upgrade, Dutchess County Department of Emergency Response

Name of Action or Project:

Public Safety Radio System Upgrade

Project Location (describe, and attach a location map):

199 Ohland Road Stanfordville, NY 12581

Brief Description of Proposed Action:

Additional equipment being installed at a public safety communication system compound consisting of an equipment shelter and foundation, generator and foundation, propane fuel tank and pad. When compound is completed, the installation of antennas, microwave dishes will be made to the existing tower and electronic equipment will be installed inside the equipment shelter.

Name of Applicant or Sponsor:	Telephone: 845-486-2080
Dana Smith, Commissioner Dutchess County Department of Emergency Response	E-Mail: dsmith@dutchessny.gov

Address:

392 Creek Road

City/PO:	State:	Zip Code:
Poughkeepsie	NY	12601

	NO	YES
1. Does the proposed action only involve the legislative adoption of a plan, local law, ordinance, administrative rule, or regulation? If Yes, attach a narrative description of the intent of the proposed action and the environmental resources that may be affected in the municipality and proceed to Part 2. If no, continue to question 2.	☑	☐
2. Does the proposed action require a permit, approval or funding from any other government Agency? If Yes, list agency(s) name and permit or approval:	☑	☐

3. a. Total acreage of the site of the proposed action? 0.08 acres
   b. Total acreage to be physically disturbed? 0.005 acres
   c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? 0.08 acres

4. Check all land uses that occur on, are adjoining or near the proposed action:

☐ Urban ☑ Rural (non-agriculture) ☐ Industrial ☐ Commercial ☐ Residential (suburban)

☑ Forest ☐ Agriculture ☐ Aquatic ☐ Other(Specify):

☐ Parkland

	NO	YES	N/A
5. Is the proposed action,			
a. A permitted use under the zoning regulations?	☐	☑	☐
b. Consistent with the adopted comprehensive plan?	☐	☑	☐
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO ☐	YES ☑	
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify: _____	NO ☑	YES ☐	
8. a. Will the proposed action result in a substantial increase in traffic above present levels?	NO ☑	YES ☐	
b. Are public transportation services available at or near the site of the proposed action?	☑	☐	
c. Are any pedestrian accommodations or bicycle routes available on or near the site of the proposed action?	☑	☐	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies: _____ _____	NO ☑	YES ☐	
10. Will the proposed action connect to an existing public/private water supply? If No, describe method for providing potable water: _____ _____	NO ☑	YES ☐	
11. Will the proposed action connect to existing wastewater utilities? If No, describe method for providing wastewater treatment: _____ _____	NO ☑	YES ☐	
12. a. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on the National or State Register of Historic Places, or that has been determined by the Commissioner of the NYS Office of Parks, Recreation and Historic Preservation to be eligible for listing on the State Register of Historic Places?	NO ☑	YES ☐	
b. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	☑	☐	
13. a. Does any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	NO ☐	YES ☑	
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody?	☑	☐	
If Yes, identify the wetland or waterbody and extent of alterations in square feet or acres: _____ ***A NWI wetland is within 150 feet of the site. The proposed project will have no impact on these wetlands." _____ _____			

	NO	YES
14. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all that apply: ☐ Shoreline ☑ Forest ☐ Agricultural/grasslands ☐ Early mid-successional ☐ Wetland ☐ Urban ☐ Suburban		
15. Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	☑	☐
16. Is the project site located in the 100-year flood plan?	☑	☐
17. Will the proposed action create storm water discharge, either from point or non-point sources?	☑	☐
If Yes, a. Will storm water discharges flow to adjacent properties?	☑	☐
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)?	☑	☐
If Yes, briefly describe:		
18. Does the proposed action include construction or other activities that would result in the impoundment of water or other liquids (e.g., retention pond, waste lagoon, dam)? If Yes, explain the purpose and size of the impoundment:	☑	☐
19. Has the site of the proposed action or an adjoining property been the location of an active or closed solid waste management facility? If Yes, describe:	☑	☐
20.Has the site of the proposed action or an adjoining property been the subject of remediation (ongoing or completed) for hazardous waste? If Yes, describe:	☑	☐

To: Sue Serino, Dutchess County Executive

From: Dana Smith, Commissioner of Emergency Response

Re: College Hill radio tower site

Date: August 31, 2024

On August 28, 2024, we received an updated Phase I Environmental Site Assessment (ESA) from our consultant Dynamic Environmental Associates (DEA) regarding College Hill radio tower site. They are reporting a Recognized Environmental Condition (REC) has been identified as a result of recent information provided by City of Poughkeepsie Engineer Richard L. DuPilka, P.E. He reported to DEA there is an unregistered and abandoned underground storage tank (UST) approximately 25' from our proposed site. It also appears through preliminary investigation this tank is no longer intact. It is also unknown if the fluids originally in the UST were properly disposed of or leached into the ground.

This information was not identifiable on the SEQR review nor the original Phased I ESA report as the UST was never reported or registered with the appropriate authorities. DEA is recommending further study and a PHASE II ESA to include soil sampling at the site.

As this site is of critical importance to the radio coverage in the City of Poughkeepsie, we would like to continue to investigate this issue and develop a remediation plan.

However, the effort will add further delays to our project as well as add additional costs. This tank will eventually have to be removed as it is in the area that is to be reclaimed for parkland. There may be contamination which must be mitigated prior to any site development.

I am asking to pull the Short Environmental Assessment Forms for the College Hill site from the resolution request we submitted for consideration at the next meeting of the Dutchess County Legislature to allow the remainder of the project to continue without further delay.

I am recommending we continue the development and approval of the College Hill radio tower site, but not until the REC is evaluated and mitigated. This site is of critical importance to the coverage and functionality for the emergency services in the City of Poughkeepsie and we should continue to pursue it. The REC at the site should, however, not delay the rest of the project development.

COUNTY EXECUTIVE

DANA H. SMITH
COMMISSIONER

SHAWN A. CASTANO
DEPUTY COMMISSIONER

DUTCHESS COUNTY GOVERNMENT
DEPARTMENT OF EMERGENCY RESPONSE

Mayor Yvonne Flowers
62 Civic Center Plaza
3rd Floor
Poughkeepsie, NY 12601

August 8, 2024

Mayor Flowers,

As you know, Dutchess County is developing a consolidated two-way radio system for utilization by all emergency services in Dutchess County, including the City of Poughkeepsie Fire and Police Departments. The system has been designed to improve radio coverage in the City of Poughkeepsie. As discussed, developing a replacement radio tower at College Hill Park is a key to the improved coverage.

It is my understanding the Poughkeepsie City Council will consider a resolution requesting Parkland Alienation from New York State August 20th, 2024. I am hopeful the Council supports the resolution. This site is a key component to offer necessary signal coverage to the City of Poughkeepsie as part of the larger countywide network. We have looked at several design alternatives with our vendor, Motorola, and our consultant, NYSTEC and none provide the necessary coverage as well as this site.

If the Council does not adopt the Parkland Alienation request at their next meeting it will force the county to move the larger project forward without the College Hill Park site. This will impact coverage and effectiveness specifically for the City of Poughkeepsie.

I must consider all the other agencies and the effectiveness of our entire system. Further delays will have significant impacts on the timeline, cost of the project, and negatively impacts all the other emergency services agencies in Dutchess County.

I do want to thank you and your staff for their efforts and assistance in developing this very important project.

Sincerely,

Dana H. Smith

Subject: ADOPTION OF ENVIRONMENTAL ASSESSMENT FORMS AND DECLARATION OF SIGNIFICANCE FOR THE DUTCHESS COUNTY CONSOLIDATED TWO-WAY RADIO COMMUNICATION SYSTEM PROJECT

Dear Chair Truitt and Members of the Dutchess County Legislature:

Scenic Hudson is writing to alert you to significant errors in the Short Environmental Assessment Form ("EAF") for the proposed telecommunications facility to be located within the Historic District at College Hill Park. Dutchess County should not advance this project without conducting SEQRA's requisite hard look at the potential for environmental, visual, and community character impacts, including impacts to dedicated parkland at College Hill and the Dudley Memorial Shelter, which is itself designated as an important historic site.[1]

We are unable to attend tonight's Environment Committee meeting but respectfully request that this letter be read into the public record.

The Short EAF submitted for review at the August 8th Environment Committee's meeting erroneously states that the site does not contain, nor is it substantially contiguous to any resources listed or eligible for listing on the National or State Register of Historic Places.[2] The site of the proposed telecommunications tower is immediately adjacent to the Dudley Memorial Shelter, and, in fact the tower is proposed within the boundaries of its listing on both State and National Registers of Historic Places (see attached).[3]

Further, the location of the proposed telecommunications facility relative to the historic Dudley Memorial Shelter and surrounding College Hill Park requires that Dutchess County review this proposal as a Type I action under SEQRA,[4] rather than as an Unlisted action as currently indicated.[5] Type I actions require a Full EAF—not a Short Form.[6] In this case, because of the nature of the proposed action—a 120' lattice tower adjacent to historic resources in dedicated parkland—an assessment of visual impacts is especially necessary.[7]

SCENIC HUDSON, INC.
85 Civic Center Plaza
Suite 300
Poughkeepsie, NY 12601
Tel: 845 473 4440
Fax: 845 473 2648
ScenicHudson.org

Scenic Hudson strongly urges the Dutchess County Legislature to review this proposal as a Type I action under SEQRA, and to carefully reconsider its other responses in the Short EAF. For example, item 6 of Part 1 states that the proposed lattice tower is "consistent with the predominant character of the existing built or natural landscape."[8] This claim requires further explanation. The project site is within an important City park, and while the proposed tower would replace a telephone pole of approximately the same height, the lattice tower would be much wider and visually intrusive when seen from the most important part of the park: its historically significant summit.

Finally, because of the importance of College Hill Park and its historic resources, Scenic Hudson recommends an alternatives assessment of other possible construction locations, including a full visual assessment with computer generated simulations.[9] This process should include important stakeholders, including the City's Historic District and Landmark Preservation Commission, Revive College Hill Park Coalition, Celebrating the African Spirit, The Poughkeepsie Alliance and others interested in this matter. Scenic Hudson would also like to be apprised as to future steps in this process.

Scenic Hudson supports Dutchess County's efforts to upgrade its emergency communications system and understands the benefits it will provide to the City of Poughkeepsie, its emergency responders, and its residents. Our recommendation is intended to facilitate the rollout of these improvements so that they will not be delayed by the New York State Historic Preservation Office or others with standing in this matter because of improper review.

Sincerely,

Jeffrey Anzevino

SIGNIFICANCE

19. DATE OF INITIAL CONSTRUCTION: 1936

ARCHITECT: John P. Draney of Poughkeepsie

BUILDER: _____

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE:

The first structure on this site was built as a replica of the Parthenon and opened in 1836 as the Collegiate School, specializing in classical and commercial education. After the school's relocation in 1867, the building was owned by Mayor George Morgan and also operated as a hotel for a short time. He built the reservoir, "Morgan Lake" on the east side of the hill. John Guy Vassar, Matthew Vassar's nephew, was the next owner and his purpose in obtaining the property was to establish an orphanage, but this plan was overthrown by the local courts. Finally, in 1892, William W. Smith, of the Smith Brothers Cough Drops firm, purchased the property for $11,600 and gave it to the city, indicating that it should be a public park. (continued)

22. THEME:

Mid-20th-century civic architecture.

BUILDING # 13 , continued Guilford Dudley Memorial

18. OTHER NOTABLE FEATURES OF BUILDING AND SITE, CONTINUED

20. HISTORICAL AND ARCHITECTURAL IMPORTANCE, CONTINUED

Apparently, the landscape architect was Downing Vaux, who also planned the elaborate Kingston Point Park, and whose father Calvert Vaux designed Central Park in N.Y.C. In fact, the father may have begun plans for College Hill before his death, but it was the son who exhibited the "General Plan for the Improvement of College Hill Park, Poughkeepsie" before the Architectural League of N.Y. in 1900 and the American Society of Landscape Architects in 1903. The original school building burned in 1917 and was replaced by the smaller replica, the Guilford Dudley Memorial Shelter in 1936. Its architect was John P. Draney of Poughkeepsie. The hill is the highest point in the city and always been a prominent physical feature of the city, easily identified in early prints and drawings. Today, the park is used for skiing and golf, for Fourth of July fireworks and picnics.

Subject: ADOPTION OF ENVIRONMENTAL ASSESSMENT FORMS AND DECLARATION OF SIGNIFICANCE FOR THE DUTCHESS COUNTY CONSOLIDATED TWO-WAY RADIO COMMUNICATION SYSTEM PROJECT

Dear Chair Truitt and Members of the Dutchess County Legislature:

Scenic Hudson is writing to alert you to significant errors in the Short Environmental Assessment Form ("EAF") for the proposed telecommunications facility to be located within the Historic District at College Hill Park. Dutchess County should not advance this project without conducting SEQRA's requisite hard look at the potential for environmental, visual, and community character impacts, including impacts to dedicated parkland at College Hill and the Dudley Memorial Shelter, which is itself designated as an important historic site.[1]

We are unable to attend tonight's Environment Committee meeting but respectfully request that this letter be read into the public record.

The Short EAF submitted for review at the August 8th Environment Committee's meeting erroneously states that the site does not contain, nor is it substantially contiguous to any resources listed or eligible for listing on the National or State Register of Historic Places.[2] The site of the proposed telecommunications tower is immediately adjacent to the Dudley Memorial Shelter, and, in fact the tower is proposed within the boundaries of its listing on both State and National Registers of Historic Places (see attached).[3]

Further, the location of the proposed telecommunications facility relative to the historic Dudley Memorial Shelter and surrounding College Hill Park requires that Dutchess County review this proposal as a Type I action under SEQRA,[4] rather than as an Unlisted action as currently indicated.[5] Type I actions require a Full EAF—not a Short Form.[6] In this case, because of the nature of the proposed action—a 120' lattice tower adjacent to historic resources in dedicated parkland—an assessment of visual impacts is especially necessary.[7]

Fax: 845 473 2648
ScenicHudson.org

Scenic Hudson strongly urges the Dutchess County Legislature to review this proposal as a Type I action under SEQRA, and to carefully reconsider its other responses in the Short EAF. For example, item 6 of Part 1 states that the proposed lattice tower is "consistent with the predominant character of the existing built or natural landscape."[8] This claim requires further explanation. The project site is within an important City park, and while the proposed tower would replace a telephone pole of approximately the same height, the lattice tower would be much wider and visually intrusive when seen from the most important part of the park: its historically significant summit.

Finally, because of the importance of College Hill Park and its historic resources, Scenic Hudson recommends an alternatives assessment of other possible construction locations, including a full visual assessment with computer generated simulations.[9] This process should include important stakeholders, including the City's Historic District and Landmark Preservation Commission, Revive College Hill Park Coalition, Celebrating the African Spirit, The Poughkeepsie Alliance and others interested in this matter. Scenic Hudson would also like to be apprised as to future steps in this process.

Scenic Hudson supports Dutchess County's efforts to upgrade its emergency communications system and understands the benefits it will provide to the City of Poughkeepsie, its emergency responders, and its residents. Our recommendation is intended to facilitate the rollout of these improvements so that they will not be delayed by the New York State Historic Preservation Office or others with standing in this matter because of improper review.

Sincerely,

Jeffrey Anzevino
